Saco Apartments

Saco apartments have a network of managed serviced apartments across Europe. Whether you are visiting a new city for a few nights, several weeks or even longer, having the space, luxury and convenience of a home can really make a difference to your stay. A serviced apartment offers this home from home experience, whether you are travelling on business or for pure pleasure.

“We have been using Forbes Hospitality for nearly 2 years now, having happened upon them by chance at a trade show & have since used them on all new locations. Installation is always prompt and the service received is outstanding, Gill Russell our Account Manager is always excellent at responding to requests and is a great help when it comes to advice on what to install and where.”

Dominique Glandfield Central Operations Manager
