The Lansdowne Place Hotel

Sanyo

Situated adjacent to the Brighton waterfront, Lansdowne Place Hotel has recently undergone a major refurbishment to restore its past glory, whilst creating a stylish, contemporary feel. The Hotel commissioned Forbes Hotel TV to upgrade their non digital LCD to a new built-in digital LCD system. The Hotel wanted to improve the services to customers and keep pace with the latest technology. The Hotel also received the Forbes Hotel remotes with lockable battery casing. There was a total of 82 Sanyo televisions fitted while the hotel was open to customers. Forbes Hotel TV fitted the system in a matter of days with minimum disruption to the running of the hotel.
