Toshiba

The Redcliffe Hotel

The Redcliffe boasts a 400 metre water frontage, at sea level, in the very centre of the outstandingly beautiful Torbay, otherwise known as The English Riviera. Privately owned and managed by the Twigger family since 1979, the Redcliffe does, however, now offer every modern facility to ensure an enjoyable stay, whether for business or pleasure, short break or family summer holiday. In May 2010 Forbes hotel TV was asked to install over 60 Toshiba televisions of various sizes on a rental contract. This 3 star hotel now has the latest LCD digital televisions, all the televisions were configured with full hotel functionality and has been able to maximize the new digital signals with the evolution of the digital switch over.
